Bhushan Pawar

Hi, I'm Bhushan — a front-end developer who enjoys turning ideas into clean, responsive, and interactive web experiences. I focus on accessibility, performance, and adding just the right touch of animation to make interfaces feel alive. I love collaborating with early-stage teams and startups where thoughtful design and front-end craft help shape the product experience.

Portfolio

Projects

Dynamic Solar System — HTML, CSS, JavaScript

Built an interactive solar system model for school science clubs to explore planetary motion on any device. Designed accurate, mobile-friendly visuals using canvas and JS animation loops. Added keyboard controls and responsive layout for accessibility. Teachers now use it regularly in class demos.

BhushanChessBot — Python

A personal chess training bot that connects to Lichess and learns from your PGN games. Automated setup, handled secrets securely, and built a command-line interface. Helped learners streamline their chess preparation and analysis.

Bhushan Chess Academy Website — HTML, CSS, JavaScript

Developed a marketing website for a local chess academy to boost visibility and engagement. Refreshed design and content with a focus on clarity and brand identity. Increased user engagement and sign-ups through improved UX.

Skills

Front-End

HTML,CSS, JavaScript, React, Bootstrap, Tailwind CSS

Programming

Python, Java

Tools

VS Code, Git, GitHub, Vercel

Focus Areas

Responsive Design, Accessibility, Design Systems, UI Animation, Performance Optimization
